

SEMINAR ON WOMEN HEALTH

February 25,2015

A seminar was held at Vishwakarma Government Engineering College, Chandkheda on Women Health and Well Being on February 25, 2015. at M block from 12:30- 1 :30 pm . The seminar was conducted by Dr. Suman Patel, MBBS DGO, and Gynecologist holding 10 years' experience. The prime objective of the seminar was to bring awareness to the girl students of the institute regarding hormonal and other related changes taking place in the body from Menstruation to Menopause. Girl students from all departments attended the Seminar along with many lady faculties. Dr. Suman Patel opened her heart out and talked about various difficulties and problems faced by women during Menstruation. She talked about women behavior during menopause. The girls were also made aware about Breast Cancer and its symptoms. This was followed by a series of questions .The expert nicely answered all the queries solving all the doubts of the audience. She also motivated girls to be powerful and positive about their womanhood. It was a very helpful Seminar conducted under the able guidance of Prof. Rupal Vyasa, HOD, Mechancial Department.

Feed Back of the program and few pictures are attached herewith.
