**On 28<sup>th</sup> April 2020 one more initiative is taken as WEB APPLICATION FOR SPREADING CORONA RELATED AWARENESS AND TO EDUCATE PEOPLE**

In response to the spreading pandemic and its effects on people's lives, **NSS VGEC** decided to make a website to educate people of all age groups. An interactive website has been made which not only gives valuable content regarding the corona virus and its effects on people's social and cultural lives, but it also tests people with short quizzes further strengthens their knowledge.

The main motive of the website was to engage people into some useful work so that they can use their time in lockdown effectively. We are very happy to receive an encouraging response of over **400+ people** who actively participated and also took the quiz.

We will continue to promote the website and make sure that the website reaches as many people as possible.
