

## VISHWAKARMA GOVERNMENT ENGINEERING COLLEGE, CHANDKHEDA

### Brief Report on “Career Counselling session for different opportunities after engineering “

Name of Department/Organizer	:	Electronics & Communication Department and IEI Student Chapter
Date & Time	:	17/09/2018
Venue	:	Ahmedabad
No of Participants	:	60

#### • Objective of the Event

- Helping to figure out what you want out of your education, your life, and who you are?
- Determining the next steps in a plan that you will develop to ensure you achieve your goals.
- Identifying the factors that are currently influencing your career development.
- **About Expert**

❖ Mr. Kamlesh Sajani has done his Masters in Commerce and has rich experience within the service industry having worked with Taj Air Caterers (Indian Hotels), Mumbai and Saudi Arabian Airlines for about ten years. In 1994, he took over the reins of IMS, it was a small time a distance learning organization. Under Mr. Sajani, IMS has expanded to a Multiple Test Training portfolio with on ground operations in more than 90 cities nationally training more than 50000 students annually. IMS has further branched into formal education and has a Management College - Praxis Business School in Kolkata in 2007, which operates as a fully immersive facility for students from across the country spread across a 10-acre residential campus..

#### • About Expert session

- ❖ All the students while starting their UG programme think about what should they do next? What are the possibilities that lies ahead for them? Is the branch which they selected right for them?
- ❖ These are some of the common questions that students think about a lot. This session helped the students to clear some of these dilemmas as Mr Kamlesh Sajani briefed

the students about the steps to be taken now by them, so that they have amazing future opportunities.

- ❖ The ice breaking introduction by Mr Kamlesh Sajnani was humorous and the students got immediately hooked and started paying deep attention to the speaker. The session started explaining the correlation between Engineering and Finance Management. Mr Sajnani said that a country can only progress when the private sector is developed. He exemplified his point by stating the loss making Air India and other government organizations. He motivated the students to be entrepreneurs and set up more companies to create more job opportunities
- ❖ Further he stressed the need of elected government have a proper planning and implement them for the well being of the citizen thus increasing the per capita income at par with the developed countries. It was truly strange to know that the biggest corporate entity of India has much low turnover than US giants like Starbucks and Walmart
- ❖ He has requested young Engineers not to run after money immediately after their graduation. This lure for money persuades them to leave the country and find a job abroad. He suggested to equip themselves with additional qualifications like MBA or Mtech. However, he suggested to get scholarships for studies abroad which has wider scope than paid courses. Also he suggested having a belief in oneself and keep on trying for opportunities.
- ❖ When mentioning about the methodology of learning, he emphasised the need to learn smart work, which is the key to success. Indians are known for their hard work. However in the changed scenario, it is not hard work but smart work that pays.

Following are the countries and its peculiarities that one should keep in mind when selecting a study abroad programme:

- America – Technologically advanced
- Norway – Free Education
- Germany – No Education Fee
- Netherlands, France – Best for fashion design courses

Mr. Sajnani finished his talk by saying that good planning and the clarity about what one wants in his life makes the career path more easy and smooth.
