Date & Time	:	11/09/2018 (10:00am to 3:30pm)
Venue	:	Narmada main canal crossing on Sabarmati River at karai village, Gandhinagar
No of Participants	:	68 Students and 2 Faculty

• Objective of the Event

7th semester students of **Civil Engineering Department** of Vishwakarma Government Engineering College Chandkheda visited **Narmada main canal crossing on Sabarmati River at karai village, Gandhinagar**. These visit falls under practical exposure of current application in the field of Hydraulic structures related to Irrigation Engineering. The visit was organized for one day on **11/09/2018**. **Total 68 students (14 girls & 54 boys)** took benefit of this technical visit. These students were accompanied by following faculty members.

- **Prof. Bhagyesh C. Contractor**
- **Prof Dhriti R. Rawat**

• Outcome of the Event

The Major objective behind organizing this visit to **Narmada main canal crossing on Sabarmati River at karai village, Gandhinagar** is to make our student realize the current practices going on in the field of Irrigation Engineering. All students were instructed to gather at said location **at 10:00 AM** on date of visit. This visit was start with an overview by Deputy Engineer from Irrigation Department, Government of Gujarat, at the canal syphon. The students were shown an overview of structures mainly consisting of two sections namely (1) The syphon Aqueduct (2) Canal Escape. Based on the information provided by the engineer in-charge, students have make very good interaction and discussion related to technical aspect of syphon aqueduct as well as canal escape.
