

VISHWAKARMA GOVERNMENT ENGINEERING COLLEGE, CHANDKHEDA

Brief Report on “Overview of EC and IC engineering field”

Name of Department/Organizer	:	Electronics & Communication Department and IEI Student Chapter
Date & Time	:	20/07/2018
Venue	:	Ahmedabad
No of Participants	:	160

- **Objective of the Event**

- To give an overview of EC and IC engineering field to 1st year students as a part of 3 week orientation program.

- **About Expert**

- Dr. Kiran Parmar is Professor, Electrical & Electronics Engineering at AIIE. Dr. Parmar has more than 22 years of teaching experience in Electrical & Electronics Engineering. He has conducted several training workshops and seminars in the field. Dr. Parmar has designed innovative experiments and has also developed a software-Satellite Communication Toolbox for MATLAB. As a Professor at L.D Engineering College, he was a project committee member of Technical Education Quality Improvement Program of MHRD, Government of India.

- **About Expert session**

- ❖ The session was attended by 160 students of EC and IC department.
- ❖ Prof Kiran Parmar has started session with definition of engineering and what are the various engineering fields available and then he focused on EC and IC engineering field.
He discussed various qualities of an engineer. He explained various sub domain of electronics field. He narrated the job opportunities available in the field and future of electronics and IC engineering field.
- ❖ Students has also asked many questions regarding the present condition of electronics field and Prof Kiran Parmar reassured them about bright future of engineering and ask them to clear fundamentals of subject in order to get growth in the EC engineering field.
